

Welding Machine

Bandsaw Butt Welding Machine

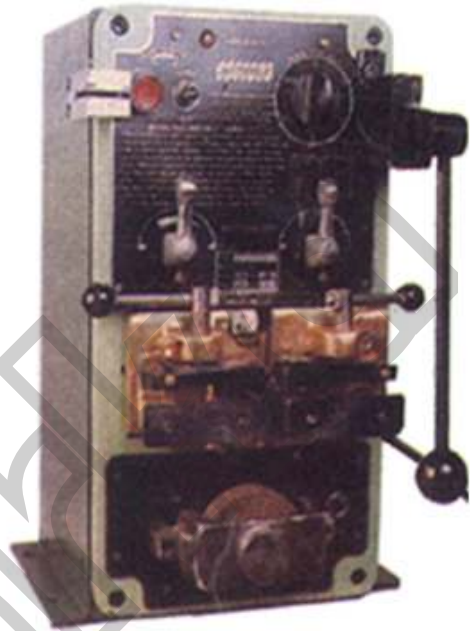

Model No: DI-102

Precision Welding

Minute precision control is ensured by the use of latest control devices. The movable jaws run on precision ball type guides which reduce friction to almost nothing and ensure utmost welding accuracy.

Operation Procedure

Sturdy in construction, Butt Welder is so designed as to facilitate reliable and easy operation even by unskilled personnel. It is most suitable for industrial conditions and will give a long lasting dependable service. All the parts have been duly dimensioned; clearly arranged simple levers ensure easy operation even for unskilled workers. Clamping arrangements are by quick action clamps and the alignment is automatic and perfect which is so essential in modern production methods.

Technical Specifications

Job	Carbon Steel Blades	Carbon Steel Blades	Bi-Metal Blades
Welding Range	3 - 25 mm	6 - 37 mm	12-31 mm
1/8" to 1"	1/4" to 1 1/2"	1/2	
Capacity	3KVA (Nominal)	5KVA (Nominal)	12KVA
Input Voltage	230V 50 Cycles	230V 50 Cycles	2.0 400V 50 Cycles
Duty Cycle	5%	5%	5%
